

SPELLBOUND WITH INHERENT QUALITIES OF  
WARMTH, LIGHT, AND HUSHED

# Magnificence

As natural light reflects off sand and faux finished walls, individual beams of sunlight begin to dance across unabbreviated granite countertops and travertine tiled floors. The generosity of space makes it easy to imagine yourself enjoying a peaceful afternoon nap, quiet reflection time, or hosting an intimate evening of entertainment where you can share your love of great food and great wine with those that matter most.

Within the home, hand-hewn beams and corbels are syncopated by recessed lighting, providing a comfortable rustic ambience. Modern appliances, accented by handcrafted cabinetry and stone

backsplashes, further connect the indoor to the outdoor surroundings. Coved and stepped ceilings form a canopy over an intimate dining room, giving way to staircases highlighted in ornate ironwork. At last, in the generous master bedroom suite, a welcoming kiva fireplace leaves you spellbound with its inherent qualities of warmth, light, and hushed magnificence.

Casas de Vistas homes are built to last a lifetime, providing sustainable resources for a rich and rewarding home purchase. Each home is backed by a full-service warranty to ensure your satisfaction now and well into the future.
